Description

Grave at Cape Adare of Norwegian biologist Nicolai Hanson, a member of the British Antarctic (Southern Cross) Expedition, 1898–1900, led by Carsten E. Borchgrevink. A large boulder marks the head of the grave with the grave itself outlined in white quartz stones. A cross and plaque are attached to the boulder.

Risk Assessment Score

3.9

0 (Low)

10 (Extreme)

Risk Assessment Details

1 Is the HSM comprised of durable materials? **No**

2 Is the HSM located in the Western Antarctic (i.e., west of the Transantarctic Mountains)? **Yes**

3 Is the HSM located on the Antarctic Peninsula, South Orkney Islands, or South Shetland Islands? **No**

4 Is the HSM located at a coastal site? **No**

5 Is the HSM located 3m or less above sea level? **No**

6 Is the HSM located within 100m of shoreline? **No**

7 Does the HSM site have steep slopes (i.e., greater than 20%)? **No**

8 Is the HSM situated on permafrost soils? **Yes**
